MUNICIPALITIES AND MUNICIPAL GROUPS OUTSIDE EYDAP'S AREA OF SERVICE

-  WATER SUPPLY WITH OR WITHOUT PARTICIPATION OF EYDAP IN THE LOCAL NETWORK OPERATION

EYDAP's area of service is the greater metropolitan area of Athens, as determined by I.1068/1980, under which the company has been incorporated. Moreover, under I.2744/1999, EYDAP has the exclusive right to provide water-supply and sewerage services in the geographical area of its jurisdiction. This right is non-transferable and non-delegable, and applies for a period of 20 years. The said duration and its renewal are specified in the Agreement signed between EYDAP and the Greek State. This Agreement was signed in December 1999.

More specifically, EYDAP's area of service covers the following Municipalities and Municipal Groups, either directly (retail) or through bulk water supply:

Moreover, there is a number of Municipalities, Municipal Groups and Settlements outside EYDAP's geographical jurisdiction, yet serviced by EYDAP through bulk water supply to local authorities and without EYDAP's involvement in the operation of the local networks. Finally, EYDAP supplies water to certain islands that belong to the Cyclades Prefecture, as well as to various towns in Prefectures along the Mornos and Yliki reservoirs.

It should be also noted that under I.2744/1999 and the Joint Decision of the Ministers of Economy, Finance, Environment, Physical Planning and Public Works, EYDAP may also expand its operations to other areas within or outside the Attica region. Before each attempted expansion, EYDAP is required to investigate and ensure the feasibility of the effected investment, as well as to secure all necessary funds.

The enactment of I.4053/2012, whereby EYDAP may provide the full range of services specified in the I.2744/1999 also outside its area of responsibility, through subsidiaries and through the signing of framework agreements with local authorities, establishes a new growth framework for the Company, expanding the market in which it can operate and develop.

To meet its obligation and provide water-supply services in the greater metropolitan area of Athens, EYDAP obtains, under certain agreements, raw water from adequate resources that belong to the Greek State. According to I.2744/1999 and the Agreement that EYDAP signed with the Greek State in December 1999, the cost for this raw water will be set off against the cost incurred by EYDAP for the maintenance and operation of the assets that belong to «EYDAP Assets» (Legal Entity under Public Law).
