

Athens, September 23rd, 2022

PRESENTATION OF FINANCIAL RESULTS OF THE FIRST HALF 2022 TO REPRESENTATIVES OF THE CAPITAL MARKET

The presentation of the first half financial results of EYDAP to representatives of the capital market was held today, Friday, September 23rd, through a teleconference. The event was hosted by the CEO Harry Sachinis, the Deputy CEO Anastasios Tosios and the Director of Financial Analysis and Investor Relations Ilias Dedousis.

During the teleconference, the financial results of the first half 2022, which reflect the stability demonstrated by EYDAP despite the crisis, were presented in detail. Also, the important events during and after the end of the first semester of 2022 as well as the effects of the geopolitical and energy crisis were analyzed. In the discussion that followed, special emphasis was placed on the direct actions of energy cost management, on the projects of Eastern Attica, on the transformation projects and specifically on the Modernization of operations, the operational upgrade and the utilization of resources.

Also, the ways to highlight the Company's ESG strategy, which includes the new bioclimatic building that will house the administrative services of EYDAP, were discussed.

The Company's targets until the end of the year are focused on further accelerating the investment program and preparing for the transition to green energy, which will reduce the effects of the energy crisis.

The investing public is informed that the Company's presentation will be posted on the EYDAP website (www.eydap.gr) in the Investor Relations section.
